

HSA Series

Height Saver Unit

Air Defrost

Height Saver unit coolers are designed for use in walk-in coolers and freezers with low headroom clearance. Typical applications would be convenience stores, supermarkets, restaurants, and other cold storage requirements. Height Saver's low profile design takes up less headroom, thus allowing more product to be stored on the shelf. The dual airflow design allows the air to circulate evenly throughout the refrigerated space, providing constant temperature control.

Features:

- Low profile
- Flush ceiling mount
- Corrosion resistant aluminum cabinet
- Dependable ratings, based on laboratory tests
- Motors are permanently lubricated with built-in overload protection
- Quiet operation/even air distribution
- UL listed
- N.S.F. Approved
- Sloped drain pan for fast condensate drainage
- Factory wired for quick field installation
- Hinged drain pan for quick easy access
