

PRODUCT INFORMATION NOTICE

Subject: Discontinuation of Out-of-stock Packaged Refrigeration Systems

By: Erin Brown

PIN #: 57

Issue: Model Discontinuations

Date: 11/26/24

All, In accordance with the AIM Act, Snap Rule 26 and EPA Technology Transition Rule, HTPG will transition all Packaged Refrigeration Systems (PRS) to utilize A2L refrigerants on January 1, 2025. Due to increased demand on our current platform offering, we will not accept orders for any out-of-stock models effective November 26,2024. Models remaining in inventory will be available to purchase for a 3 year sell through period ending December 31, 2027. This decision ensures our customers experience a seamless shift to the environmentally friendly alternatives.

Table with 4 columns and 7 rows listing impacted models: HPH050M48AB, HPH050M48DB, HPH050D48DB, HPO150L48DB, etc.

Upcoming A2L literature will detail new model nomenclature, capacity ratings, and product specifications.

Thank you for your continued support of HTPG and please let me know if you have any questions about this product offering update.

Action:

Please ensure that your impacted customers have received and are aware of the impacted model discontinuations and key dates
