

PRODUCT INFORMATION NOTICE

PIN No: TEC-15k
Date: 6/19/2012
By: Joe Berry

Subject: KDS/KDD Condenser revisions

This document and associated attachments pertain to the release of revised literature, price sheets and selection software relating to Kramer's KDS/KDD condenser line.

- Document KM-KDS-0612A is the current release of Kramer's air cooled condenser product bulletin. This document includes newly assigned model numbers that are designed to better reflect relative condenser capacities.
- Price sheet KDS 2-2012 dated May 25, 2012 is the current release of the condenser price sheet. This document reflects the above mentioned model number changes along with revisions in pricing for some VSEC condensers, and a restructured and more fully populated options page (15).
- Also provided with this release is a condenser selection program intended to simplify the choice of models from within the KDS/KDD condenser family.

This information is now available on the Kramer website at <http://kramer.htpgusa.com>

ACTION: Notify your reps and customers of the availability of these resources. Please place the information into your catalog and retain this notice for future reference.
