

PRODUCT INFORMATION NOTICE

PIN No: TCO-44 Rev. 1
Date: January 4, 2016
By: Karen Alvarado
Issue: Next-Gen Kompact ½ to 6 HP revisions
Subject: Next-Gen Kompact Literature Update

The following revisions have been made to Kramer's Next-Generation Kompact ½ to 6 HP Multi-Refrigerant Air Cooled Condensing Unit literature (KR-KFH-1115B):

- Expanded nomenclature to include Pre-assembly Codes for Extended Range models. These pre-configured models will be stocked in our finished goods warehouses for quicker customer turnaround.
 - Blank = Standard configuration.
 - T = Includes mechanical air defrost timer in lieu of electronic air defrost timer.
 - L = Includes ED-kit with electronic timer in lieu of air defrost timer.
 - LT = Includes ED-kit with mechanical timer in lieu of air defrost timer.

These pre-assembly codes are only for the purpose of identifying finished goods that include optional components. Do not use these codes when ordering units to be built on the production line.

- Updated MCA electrical data for hermetic and scroll models.

Please refer to the Kramer Next-Gen Kompact product catalog KR-KFH-1115B for up-to-date information and available options. The PDF is posted on the website at <http://kramer.htpgusa.com/literature/condensing-units-literature/air-cooled-literature> and printed copies can be ordered from the literature warehouse by using the form on the website at <http://kramer.htpgusa.com/literature/order-literature/air-cooled-fluid-cooler-literature>.

ACTION:

Distribute this information to your Reps and customers as required. Retain this notice for future reference.
