

PRODUCT INFORMATION NOTICE

PIN No: PRI-43
Date: January 25, 2017
By: Joe Berry
Issue: Notification
Subject: RLP Price List change

Russell's list price sheet, now named RLP 1-2017, has been updated and has been posted to the Russell website under the Support tab>Pricing. Here is a direct link to the page: <http://russell.htpgusa.com/support/pricing>.

The changes to this latest price list include the addition of pricing for Russell's new Next Gen II Air Cooled Condensing units and associated options. The legacy D-Series units have been removed. A summary listing all of the changes to the RLP price list since it's last printing will be attached to the email announcing this latest version of the price list.

The format used to display pricing these Next-Gen II units has been changed from the original D-Series format. The older style voltage column format, with asterisks indicating variable product features, has been replaced; to now show complete condensing unit model numbers; see pages 19 – 21 for more detail. The entire price list will eventually be transitioned to this new format displaying full model numbers for all units (no asterisks). Compressor model numbers have been also been added to the Next-Gen II price pages as well as to Next-Gen Minicon pages 16 and 18 .

RLP 1-2017 is only available in PDF format. New price sheets will not be printed at this time.

ACTION:

Please notify your representatives and customers of the availability of this price sheet update and send them the direct link to the website listed above.
