

PRODUCT INFORMATION NOTICE

PIN No: LIT-73

Date: March 13, 2017

By: Joe Berry

Issue: Next-Gen ½ to 6 HP revisions

Subject: Next-Gen W-Series Literature Update

The following revisions have been made to Witt's Next-Generation W-Series ½ to 6 HP Multi-Refrigerant Air Cooled Condensing Unit literature (WT-WFH-0117A):

- The document has been expanded to 24 pages.
- Performance data has been added, including extended range capacities for the R404A hermetic models and the addition of capacity tables for hermetic RST compressor using several refrigerants not previously offered.
- Note a format change adding refrigerant color code to page headers that correspond to the rating table being displayed.

Please refer to the Witt product catalog WT-WFH-0117A for up-to-date information and available options. The new PDF is posted on the website and printed copies can be ordered from the literature warehouse by using the form on the website at <https://witt.htpgusa.com/literature-request>. Previous copies of W-Series literature are located in the obsolete literature section of the Witt website at <https://witt.htpgusa.com/literature/obsolete-literature>.

ACTION:

Distribute this information to your Reps and customers as required. Retain this notice for future reference.

Thank you.
