

PRODUCT INFORMATION NOTICE

PIN No: PRI-39W rev1
Date: August 26, 2015
By: Joe Berry
Issue: Revised Notification
Subject: Hot Gas Defrost Evaporators and
Condensing units

This notice revises the original document concerning the subject.

Effective immediately, Hot Gas Re-Evaporator vessels (HEA's) are no longer being produced and are not available for order. In addition, Condensing unit, HG-RE re-evaporator kits are no longer available for installation on WD-Series or WV-Series condensing units. Listings for these items have been removed from the latest price list posted on the Witt Website. See the link below.

http://witt.htpgusa.com/images/pdfs/WLP_3_2015%20R5.pdf

Replacement evaporators continue to be available for order with pricing found in the current price lists. Future quotes and orders for Hot Gas defrost **systems** should utilize High Sierra products or Thermobank systems.

The original statement shown below has been modified (above).

~~Effective immediately all Hot Gas Re-Evap unit coolers, condensing units and replacement heat exchanger accumulators are discontinued and are no longer available. Models affected are listed below.~~

- ~~• SH model Super-Flo unit coolers~~
- ~~• IFH model Inter-Flo unit coolers~~
- ~~• PHM and PHL Polar Flo unit coolers~~
- ~~• Hot Gas Re-Evap Defrost kits for WD-Series and WV-Series condensing units~~

~~Catalog literature and price sheets will be amended, reprinted and posted to the websites as quickly as possible.~~

ACTION:

Please notify your representatives and customers of these changes / corrections.
