

All-Purpose COOL

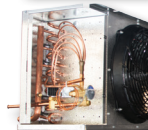

NEW DESIGN

NEXT-GEN ALL-TEMP Low Profile Unit Coolers

We've taken our industry-leading all-purpose low profile unit cooler to the next level with increased cooling efficiency, energy savings, and easy service access. Features of these Next-Gen All-Temp coolers are high efficiency motors, new fan guard design and deep draw venturi to achieve optimal air flow, balanced fans for vibration-free operation, coils with enhanced copper tubing, face-mounted electric defrost heaters, and redesigned housing with slide-out end panels for quick access. For more than 70 years, Russell has delivered advancements in commercial refrigeration. Now, we're re-inventing all-purpose cooling.
