

RUSSPAK™

Russell Introduces Condensing Unit Packages That Won't Cost You a Ton.

RUSSPAK™ provides a perfect combination of quality proven evaporators and condensing units, providing the designer or contractor with an efficient, balanced refrigeration system, in a simple to specify, competitively priced, available team of high-quality, standard products. 28 standard models from 1 to 25 H.P. And, there's almost an endless number of options to meet your needs for High, Medium and Low Temperature applications.

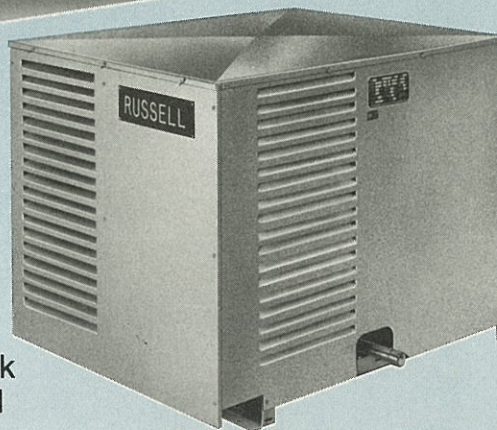

Sure, everybody wants to sell the systems approach, and Russell lets engineering work hand-in-hand with standard units for special applications. You'll also find they're readily available to meet your delivery requirements.

Contact your Authorized Russell wholesaler or local sales representative to obtain the lowest cost package to fit your needs.

RUSSPAK It won't cost you a ton.
